CALIFORN

Do you want to live where the climate is mild the year round—where labor is never oppressed by stress of weather, and where animal vitality is never lost by mere conflict with cold?

Do you want to live in a region where the resources are more varied than in any other equal area in the world, where the division of great ranches affords a fine opportunity to get a small farm that will assure you a competence?

Do you want to live where, with a minimum of labor, you can grow profitable crops of grapes and small fruit, oranges, lemons, olives, prunes and almonds, affalfa and grain, where crops are sure, business is good and capital easily finds profitable investment?

Then go to California, where both health and opportunity await your coming.
